

2BE4 Model
Nash Liquid ring vacuum pumps and compressors

2BE4

The Nash 2BE4 series is an upgrade of the Nash's 2BE3. Designed to operate in demanding environments, these pumps offer durability and reliability at a low cost of operation. Each model is equipped with an application-proven polyisoprene-lined body for added corrosion & erosion resistance. According to the client's application, the model can be offered in stainless steel or stainless steel clad and they are ideally suited to handle a variety of applications:

- Paper & Pulp
- Metallurgy
- Chemical Process
- Mining
