

**TCM/ TC Model
Nash Liquid Ring Vacuum Pumps**

TCM/ TC

The Nash TCM/T line of vacuum pumps are two stage pumps that can reach 20mm Hg abs at sea level. All Nash liquid ring vacuum pumps have only one moving part, the rotor, that rotates without any metallic friction, avoiding wastage and increasing the useful life of the equipment. The TCM/TC line is manufactured in cast iron or stainless steel and it is supplied to the following industries, amongst others:

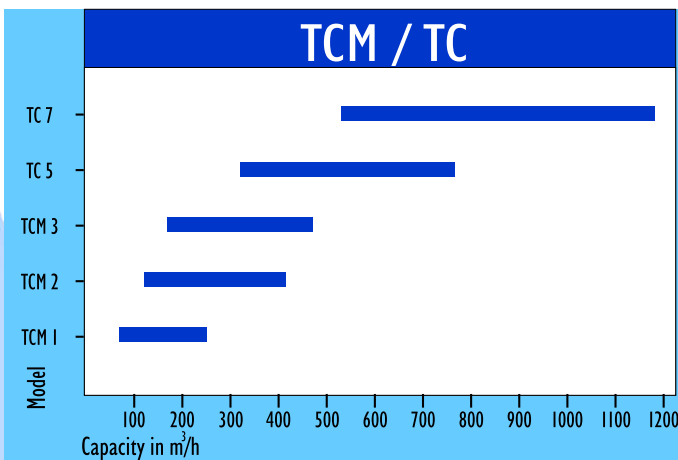

- Pharmaceutical
- Chemical
- Ceramics
- Mining

MODEL	DIMENSIONS IN MILIMETERS		
	A	B	C
TCM 1	1350	885	720
TCM 2	1600	920	830
TCM 3	1650	1100	1100
TC 5	1730	1160	1000
TC 7	2200	1360	1160

Basics Specifications

Vacuum	0-29,13" Hg at sea level
Shaft Seal	Packing or Mechanical seal
Construction Material	Ductile iron or stainless steel
